Section 01

Strategy

Trusted *Legal Intelligence*

Essence

The brand essence represents the heart and soul of the business. An insight into who we are, what we do and the solution we provide to our customers.

Transforming legal and HR tasks into *intelligent, structured and compliant workflows*. Now SMEs have a scalable, explainable alternative to generic AI and manual legal processes.

Vision

The brand vision paints a picture of the ambitions that LawFairy seeks to realise.

To become the *trusted legal backbone of modern businesses* - making legal processes structured, intelligent and effortlessly actionable.

Mission

A clear, concise statement to articulate the function of the business.

To equip businesses with reliable legal intelligence that structures processes and empowers confident, compliant decisions at every stage.

Purpose

Our purpose statement clarifies the solution that LawFairy provides. The 'problem' that the solution solves is essentially the opposite state to what is explained here.

To make legal work and compliance simple, explainable and efficient through structured *legal intelligence* - not AI guesswork.

Pillars

Pillar 01

Trust & Accuracy

No hallucinations. No black-box AI. Every output is fact-checked and regulation-ready.

Pillar 02

Structured Workflows

From onboarding to compliance, LawFairy connects every process using reusable data.

Pillar 03

Explainable Intelligence

Every decision and document can be explained, traced and verified.

Pillar 04

SME Empowerment

Built for growth - SMEs save hours weekly and scale without legal bottlenecks.

Tone

Tone 01

Confident

We speak like experts - but never arrogant.

Tone 02

Clear

Plain English > Legalese or AI hype.

Tone 03

Creative

We think differently, we unlock possibility and we avoid unnecessary formality.

Tone 04

Supportive

We empower and reassure our users - never intimidate them.

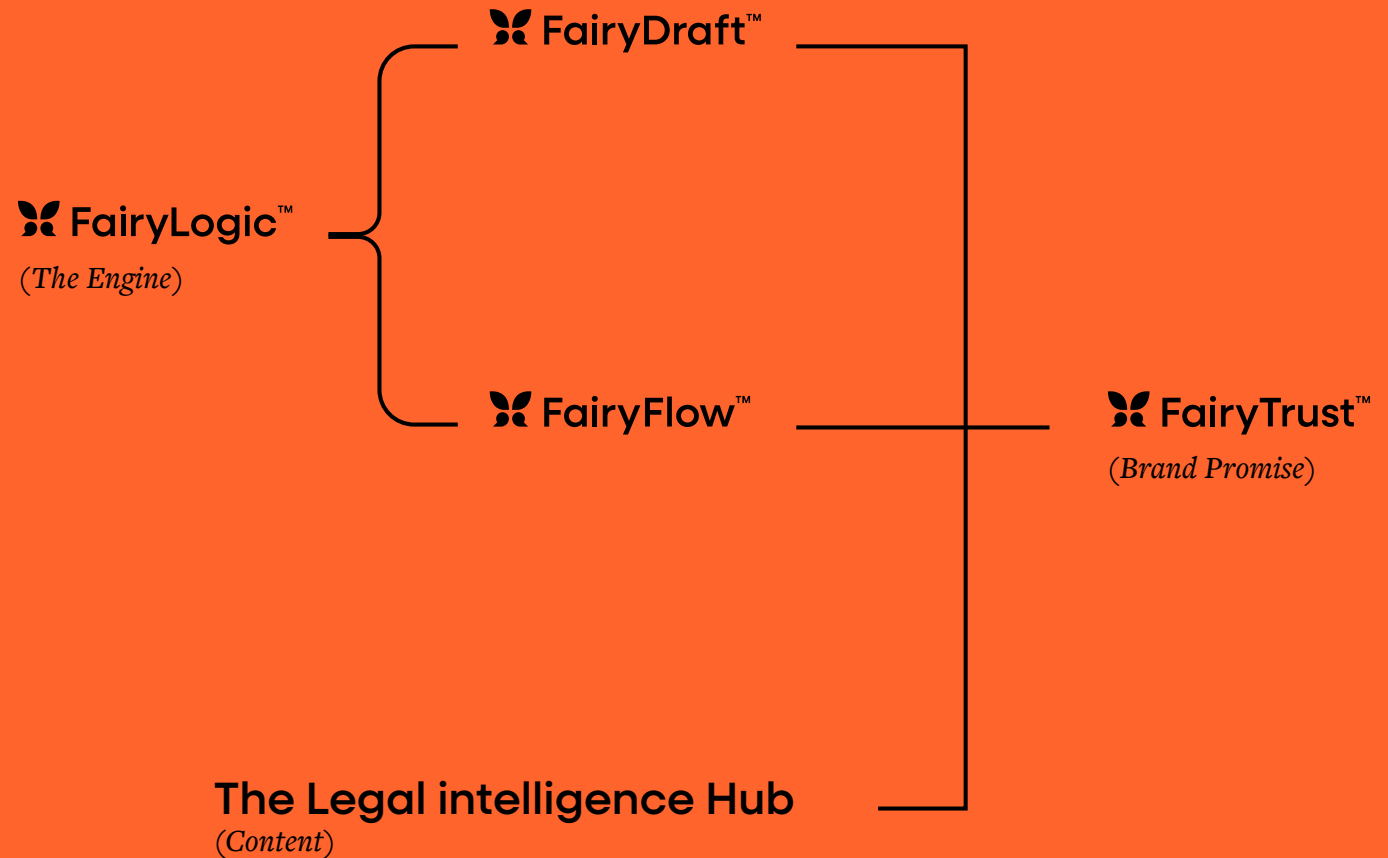

Tone 05

Intelligent

Always structured, always explainable.

Architecture

Here, you can see how the various parts of the business inter-relate. Our FairyLogic engine is the power behind our tangible products (FairyDraft™ & FairyFlow™). The Legal Intelligence Hub is our content arm where we are able to talk about what we do and the industries that we serve. All of these elements do some work in boosting our brand promise - FairyTrust™.

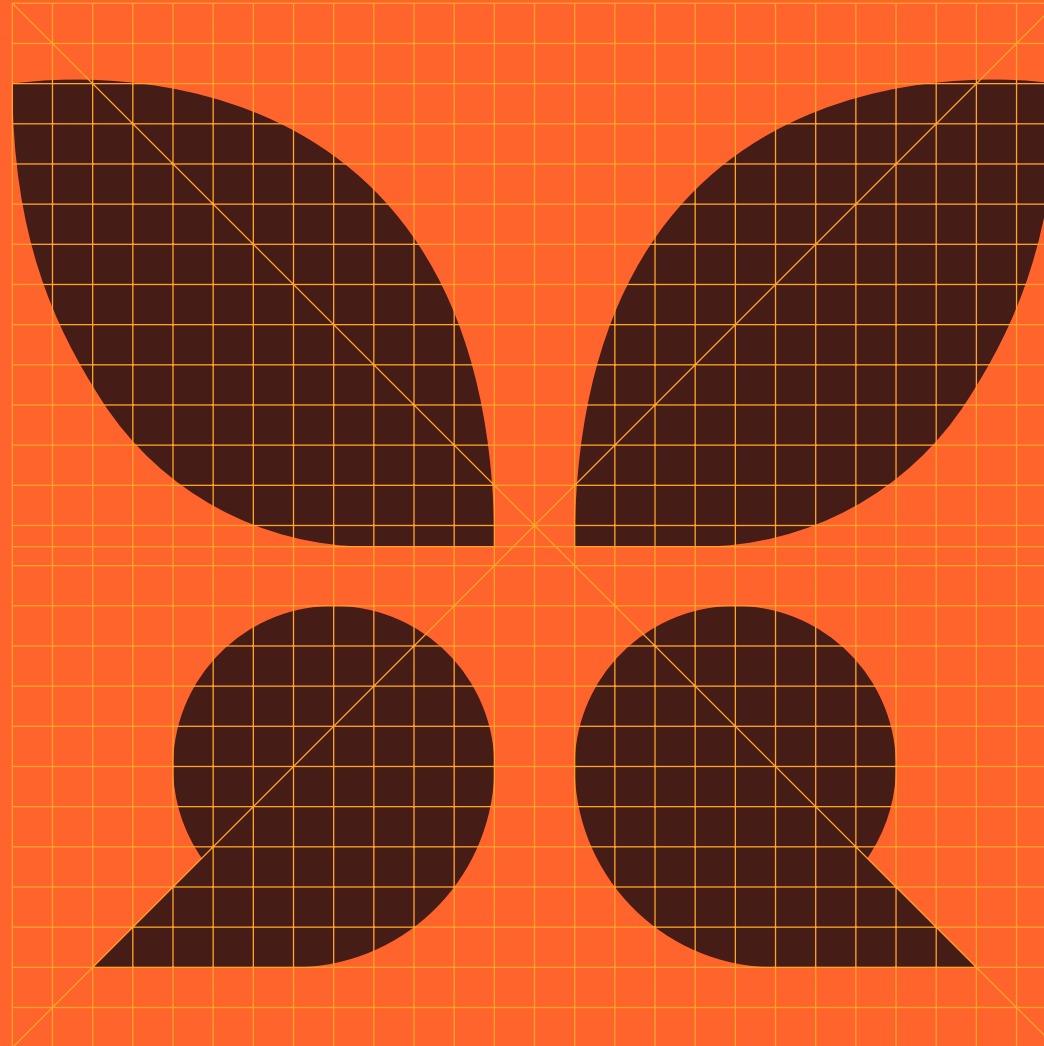

Section 02

Logo

Theory

The theory behind the LawFairy brand is born out of the desire to create a lasting digital icon that allows for a playful aesthetic, achieved through the use of our 'wings' icon - inspired by the mythical fairy.

Construction

Logo

The LawFairy primary logo should be considered the foremost visual identity for LawFairy.

Leave an area of clear space between The Logo and any other graphical elements.

The LawFairy logo is available in a range of colour-ways. This identity is also available in MONO black and white for use in restricted printing constraints.

Minimum width = 60px.

 **LawFairy**

Note: The logo is also available as an animated asset. [View here.](#)

Typography

Headline

'Freight Text' is the official headline typeface for LawFairy.

It is the foremost typographic representation of the brand.

It should be used sparingly in headlines only to create drama and impact. Copy over three sentences in length should adopt supporting typefaces.

Colour

Palette

Our bold colour-way represents the playful nature of the brand. Colours are carefully considered and should not be adapted in any way.

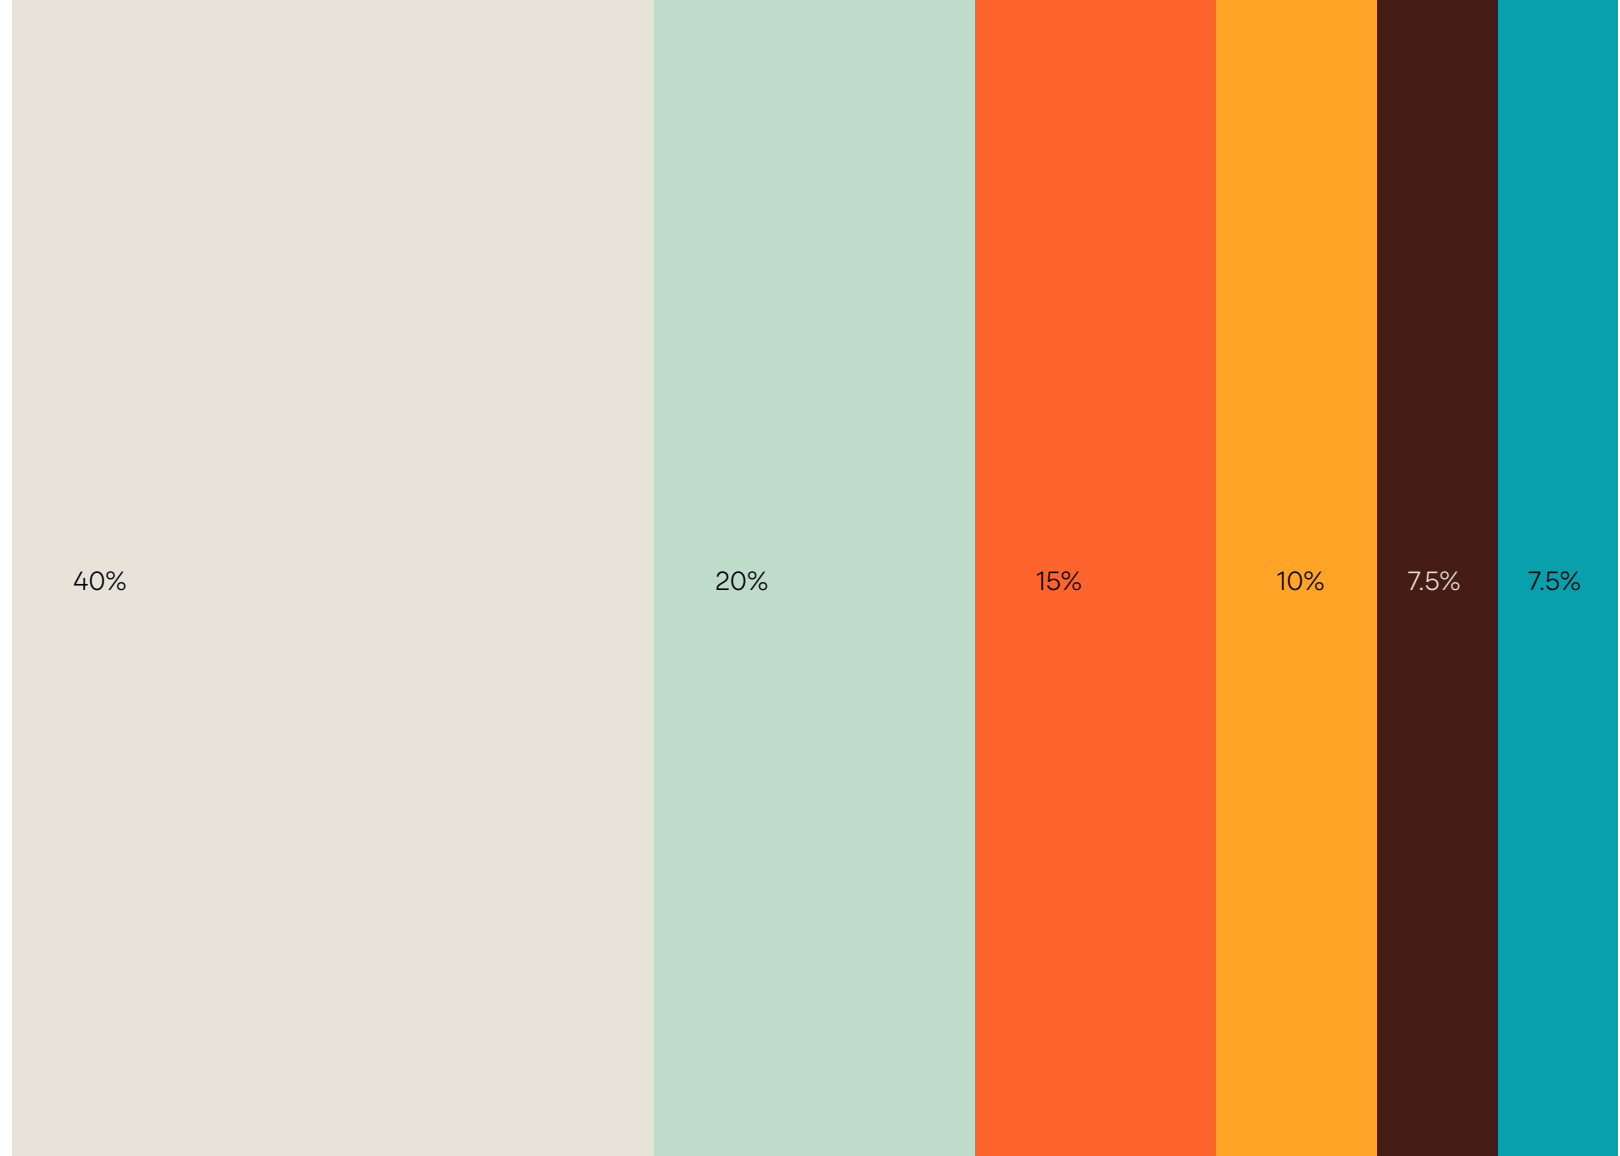

To develop depth within design or storytelling, add tints of colour to specified colours in 20 percent increments; 80% and 60%.

Ratio

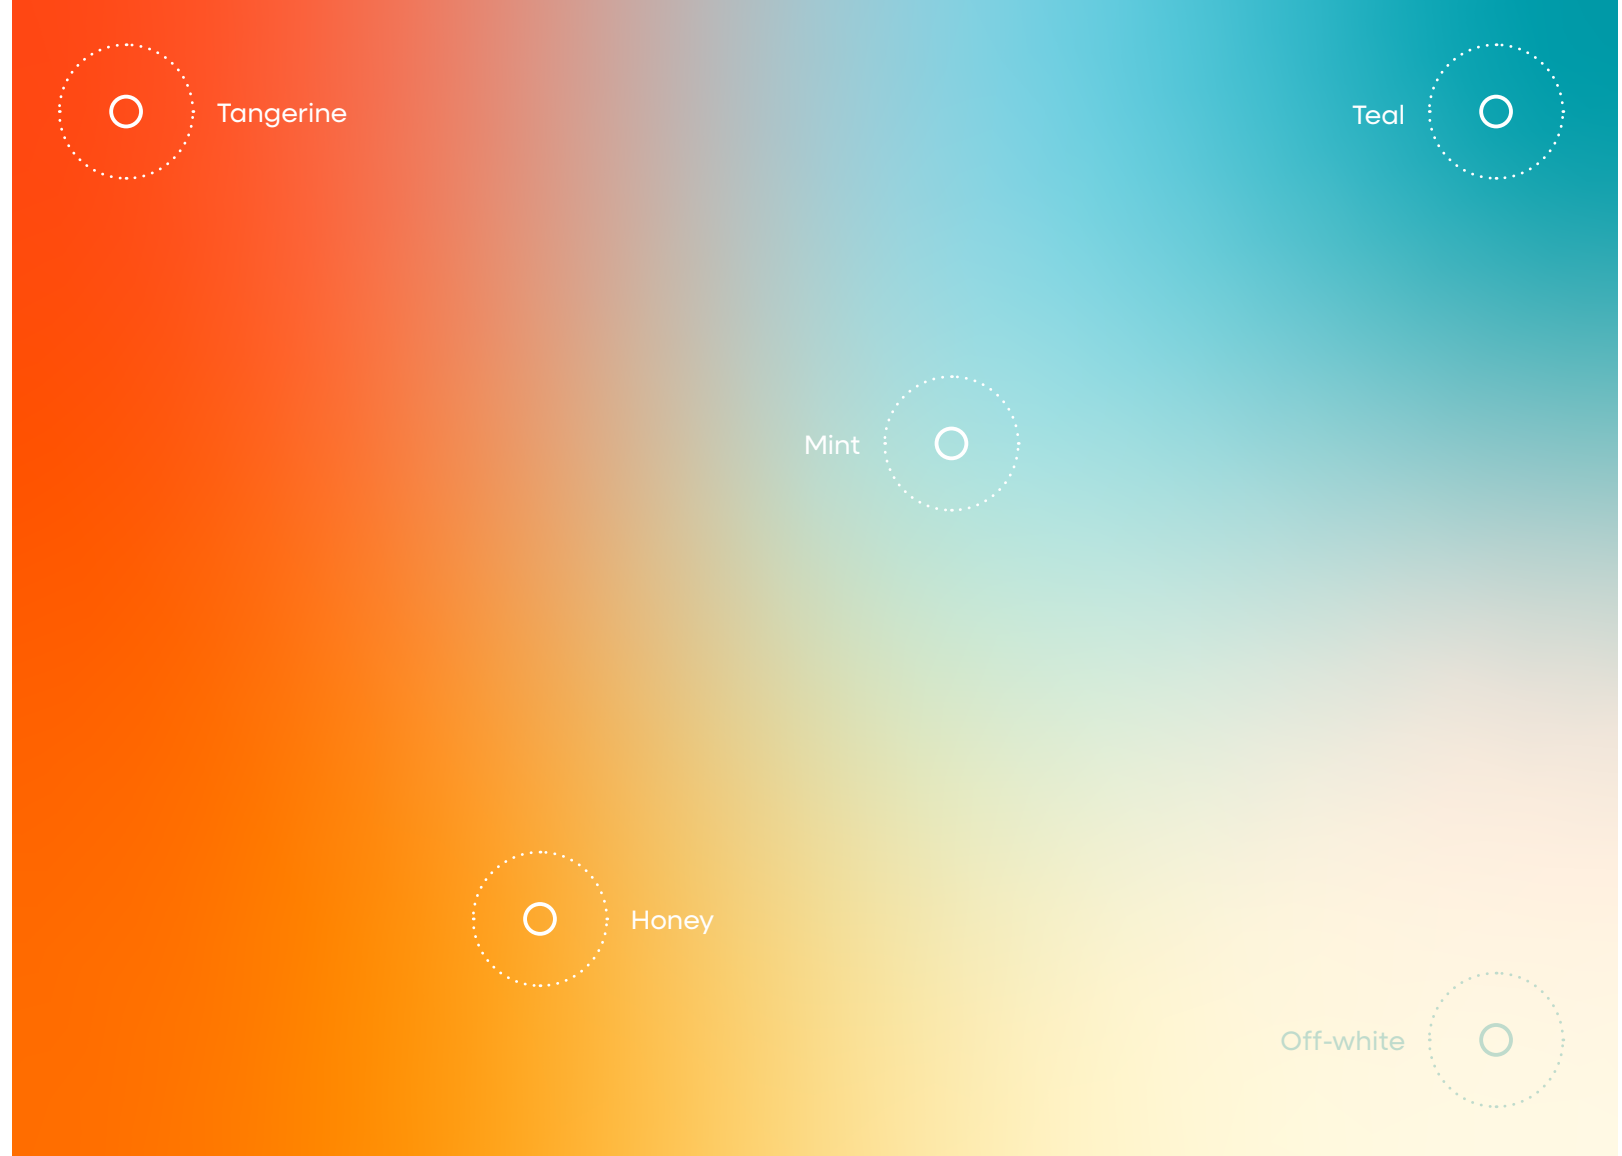

This page provides an understanding on the ideal colour ratio to any given campaign or creative.

Note: This excludes black and white and imagery.

Gradient

LawFairy brand colours can be used together in this freedom gradient creating backgrounds with depth and dynamism.

Pairings

Using key messaging as an example, this is a visual guide to acceptable colour combinations in typographic communications.

Accessibility

WCAG 2.1 Level AA

Our colour choices and combinations have been selected with full consideration of accessibility for those with colour-blindness.

Measuring the contrast ratio of our background and text colour combinations has allowed us to ensure compliance with global internet standards.

WCAG Accessibility Criteria:

Large Text refers to 18 pt and above for regular font-weight, or 14 pt and above for bold font-weight. For AA, the qualifying ratio is 3:1

Regular Text refers to 17 pt and below for regular font-weight, or 13 pt and below for bold font-weight. For AA, the qualifying ratio is 4.5.

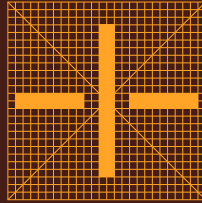

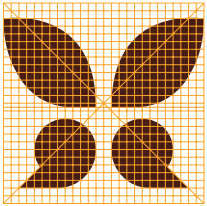

Note: This test excludes black and white which is a pass on both all tests.

UX

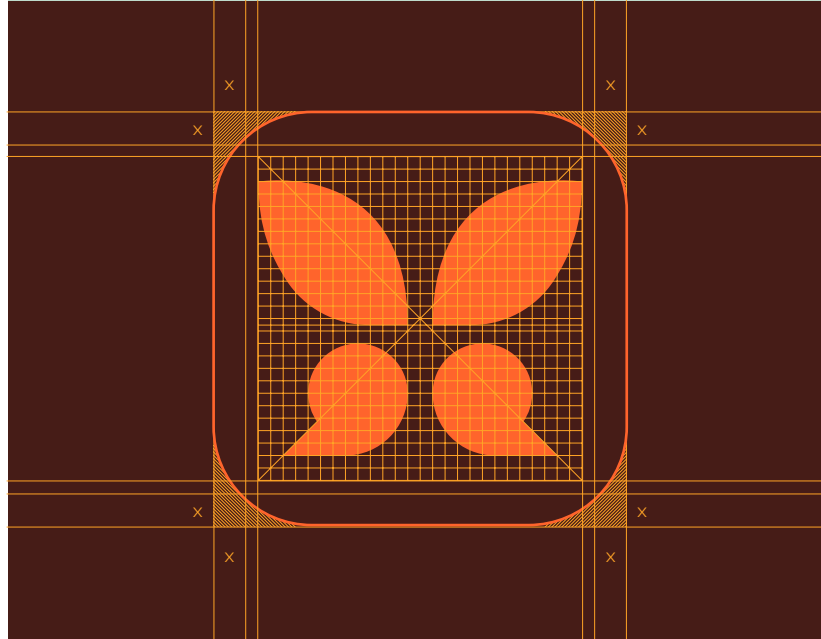

UX within the LawFairy APP is crucial for a successful product. Simple grids and spacing can be applied to items such as buttons to generate a consistent UX that allows for ease of use.

Note: Example layout and execution only. This gives an insight as to some of the considerations that should be given to clear communications on the platform.

Badge

The LawFairy app badge is a crucial part of visual identity. As such, the LawFairy icon is deployed using considered spacing and grids for maximum impact and legibility at small scales.
